**DWI Operations set for Valencia County**

Los Lunas — State Police will be conducting a sobriety checkpoint and ongoing saturation patrols throughout the weekend of April 24<sup>th</sup> in Valencia County.

Sobriety Checkpoints are one of the most powerful weapons in the battle to reduce drunken driving. The checkpoints not only help to get drunks off the road but are an important educational tool, these are living breathing bill boards that *will* take you to jail so you can contemplate the poor choice to drink and drive.
